The Centralia Police Department utilizes Flock Safety technology because it provides a proven, force-multiplying tool that helps us quickly locate stolen and wanted vehicles, recover victims of violent crime, and keep our community safer. I believe transparency builds public trust, which is why we voluntarily publish these complete organizational-use audits.

****Access to our camera network is restricted exclusively to other Washington law enforcement agencies, due in part to the uniform privacy and civil-rights protections all Washington agencies must follow under the Keep Washington Working Act.**
