Approval of Proposed Rule Change, Rule VII. Examinations - Section 11

Section 11– Continuous Testing

1. Continuous Testing Eligibility Register. The Secretary/Chief Examiner, following approval by the Commission, may establish any eligibility register for use by applicants tested through and certified for eligibility through a continuous testing process provided by a subscription testing service.

2. Additional Testing. Applicants placed upon this register shall be subject to such other testing processes as the Commission shall direct, including but not limited to oral boards or any other testing process conducted by the Commission or by a subscriber pursuant to this Rule. Such additional examinations shall be scheduled by the Secretary-Examiner. Any applicant who requests to be excused from the additional testing may have that request approved by the Secretary-Examiner. If approved, the applicant may remain on the register for future vacancies.

3. Removal of Names. The names of candidates to this eligibility register shall remain on the register until either certified to a secondary hiring list following an oral board or other testing as established by the Commission, the expiration of one (1) year from the date of certification or until the candidate has been hired by another public safety organization. Names may be removed upon notification by the candidate, upon the written notification of another public safety employer or an entity providing subscription testing. The Secretary-Examiner may remove a name from the register if the applicant, upon notification, fails to appear for additional testing processes.
