

**TO:** **Centralia Resident**

**FROM:** **Fred Perryman, Project Manager**

**DATE:** **April 28, 2025**

**SUBJECT:** **2025 Sanitary Sewer Pipe Bursting & CIPP Main Replacement**  
**Project Number: PW 2025-04**

The City of Centralia Wastewater Department will be replacing sewer mains and/or working on manholes in your neighborhood this summer. In order to limit impacts to adjacent residents, the majority of this project will take place using trenchless methods, which replaces the pipe by pulling a new pipe through the existing pipe. This eliminates the need to dig up the entire length of the sewer main in most areas. Work will also include rehabilitating, replacing and installing manholes, adjusting and replacing sewer manhole castings and reconnecting sewer laterals from the property line to the new sewer main.

There will be some impacts to adjacent residents during the work. The roadways will be open to residents during construction, but please be cautious when walking or driving through the work area. Flaggers will be present to direct traffic through the area as needed. The contractor, Barcott Construction, the City Inspector, and the Engineering Department will coordinate with adjacent residents during the work to minimize the inconvenience.

If you have any questions or concerns at any time during this project, please feel free to contact me at (360) 330-7512 or by e-mail at [FPerryman@cityofcentralia.com](mailto:FPerryman@cityofcentralia.com).

Thank you for your patience during construction.
